Dear friends,

today pope **S. Pio X°**, former **Giuseppe Melchiorre Sarto** is celebrating his birthday!

* June 2nd 1835 in Riese, Treviso province; † August 20, 1914 in Rome. He had been pope between 1903 and 1914.

When he had been a young priest he has built several good sundials! Some of them are still preserved and carefully restored.

Don't miss the chance to visit the sundials of a Saint if you are on holiday near Venice!

Best regards!
Reinhold Kriegler
